In accordance with the recommendation approved by the SGC, I have conducted an analysis of the enrollment/FTES generation of classes offered at area high schools in comparison with the same class held on campus. I reviewed Fall 2009 and Spring 2010. There were 51 classes offered and of those 9 generated enrollment comparable to online classes.

The courses included in the 9 were:
- CAOT 23
- CAOT 93
- CAOT 112 (2 sections)
- PERSDEV 40 (3 sections)
- PHOTO 46
- MUSIC 250

One of the intents of dual enrollment is to provide the broadest type of opportunities for high school students to earn college credit. In my review of our catalog it appears to me that none of these courses meet associate degree GE or CSU GE or IGETC. Of course they may meet certificate or major degree requirements.

There were 3 high schools that had 2 classes each included in the 9:
- Academic Leadership Community School (4 classes total offered)
- Eagle Rock High School (4 classes total offered)
- Hollywood High School (7 classes total offered)

We will be discussing this data and suggesting a plan of action for Spring 2011 at the next EMT meeting on October 7.
