Access Recommendations

1. This section needs to be rewritten by the program
2. The department did not accept any responsibility for their role for improving access - our recommendation is for this discipline to develop a plan to improve access using data and analysis provided by institutional effectiveness.

Success Recommendations

1. This section needs to be rewritten by the program
2. Errors in data regarding on line courses; no attempt to address the data related to success.

Accountability Recommendations

1. This section needs to be rewritten by the program
2. No attempt on the part of the discipline to encourage faculty to complete flex hours through education. No attempt to approach adoption of SLOS as a team effort in collaboration with SLO coordinator

Partnerships Recommendations
