Computer Technology

Access Recommendations

1. Improvement plan(s) in this section require(s) more data analysis before they are implemented.
2. The improvement plan does not adequately address the data and is insufficient. The department should reevaluate and revise.

Success Recommendations

1. Improvement plan(s) in this section require(s) more data analysis before they are implemented.
2. There were no departmental discussions about success rates and this is problematic. Thus, the department should have a discussion about measures to improve success rates and include in the review.

Accountability Recommendations

1. An improvement plan is necessary to address the areas of concern. SLO assessment at 87% should be addressed and an improvement plan developed to get the discipline to 100%.

Partnerships Recommendations

1. This is a discipline that should have community partnerships. The department should consider working with an advisory group to establish some partnerships with business and/or industry.

Award Recommendations

Computer Technology Degree

1. There should be more careful consideration of the viability of the program if degrees cannot be awarded due to limited course offerings.

Computer Technology Certificate

1. There should be more careful consideration of the viability of the program if awards cannot be awarded due to limited course offerings.
