

## CPR 2012 Validation Team Summary

### Academic Program Validation

A total of 85 Disciplines and 119 awards were validated by 10 validation teams. Validation teams consisted of one EPC member, one non-EPC faculty member, one student services representative, and one administrative services representative. 50 of the 85 disciplines (i.e. 58.8%) received at least one recommendation, and 32 of the 119 awards (i.e. 26.8%) received at least one recommendation. Disciplines are currently working with their Deans to address these recommendations.

### Student Service Program Validation

A total of 18 Student Service Programs were validated by two validation teams. Validation teams consisted of two student services representatives, one faculty member, and one administrative service representative. Nine of the 18 Student Service Programs (i.e. 50%) received at least one recommendation. Programs are currently working with their Deans/VP to address these recommendations.

### Administrative Service Program Validation

A total of 10 Administrative Service Programs were validated by one validation team. The validation team consisted of two administrative services representatives, one faculty member, and one student services representative. Eight of the 10 Administrative Service Programs (i.e. 80%) received at least one recommendation. Programs are currently working with their VP to address these recommendations.

### Amount of Time to Complete Validations

OIE received a number of questions regarding how long it took for the various validation team constituencies to complete their individual validations. In response, OIE analyzed the average length of time it took for faculty representatives, student services representatives, and administrative service representatives to complete their respective individual online validations. On average, it took 26.0 days for validators to complete their individual online validations. There was no statistically significant difference between the three constituent types.

Time to Complete Individual Validations
